The specification is objected since the section "Brief Description of Drawings" is missing.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11-16 and 18-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recited "derivatives" in "styrene derivatives" and " α -methylstyrene derivatives" in claim 11 is indefinite since there is neither definition nor various species for said "styrene derivatives" and " α -methylstyrene derivatives" in the specification. The metes and bounds of the scope of invention is unclear. Said α -methylstyrene is well known derivatives of styrene, and the examiner wonders what monomers fall within the scope of " α -methylstyrene derivatives". Cancellation of said "styrene derivatives" and " α -methylstyrene derivatives" is suggested.

Claims 11-16 and 18-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
